

Symphonie

Aqua Line Knee Sleeve

designed by Andreas Radspieler

NO Limits

BE Free

The innovative knee sleeve for optimal mobility

Symphonie Aqua Line Knee Sleeve for the vacuum socket system

- + High degree of mobility and flexibility
- + Superior level of wearing comfort
- + Easy to put on
- + Adhesion and control of the prosthesis
- + Freedom around the knee, no compressive strain and without folds in the popliteal area
- + No pressure on the patella

The innovative, thin and flexible texture of the Symphonie Aqua Knee Sleeve combines adhesion and control with wearing comfort and mobility. The flexible material facilitates knee flexion and does not confine the residual limb. Enjoy long-lasting and comfortable usage in daily life and sports, due to not having any pressure on the patella, an absence of buckling in the bending area and no restriction of usage.

Simply
brilliant

Whether sitting for long time periods, climbing stairs, bicycling
or taking a walk – one can do it all without limitations!
